*** Denotes Class is Full.**

All resident courses are conducted in the Martha Layne Collins Center for Industry and Technology at Murray State University. State-of-the-art equipment is used with emphasis on "hands-on" training. Students are provided manuals and course materials containing essential information and written compliance documents. Customized training is also available.

ALL OF THESE COURSES CAN BE DELIVERED TO YOUR WORK SITE!

The Occupational Safety and Health Training Center reserves the right to cancel any courses.
