Full Service for You

from the Office of Sponsored Programs

Fall 2011

A Word from the Director

The Office of Sponsored Programs is continuing its commitment to adding value to the grants and contracts development efforts across campus. We want to be a resource to the early exploration and development efforts, while continuing to deliver quality submission and management services throughout the external funding journey. We want strong partnerships across campus and to be viewed as a complement and resource to any and all external funding efforts. While the vision is clear, the details will continue to emerge in the years ahead. Thanks to everyone for the support and encouragement as our Office of Sponsored Programs becomes a more effect "full service" part of our external funding efforts.

Recent Events

Murray State University's Office of Sponsored Programs hosted their second event of the ongoing Grant Development Series on September 15, 2011. The Office of Sponsored Programs was honored to have Mr. Miles Wilson as a special guest for the event. Mr. Wilson serves as the director of Philanthropic and Nonprofit services at the Dorothy A. Johnson Center for Philanthropy. Mr. Wilson presented two sessions to a diverse group, consisting of faculty and staff from the campus community, non-profit leaders in and around the Murray community, and MSU students. He shared information on the future of foundation giving and the impacts this has on seeking external funding. In a later session Mr. Wilson provided valuable information on key elements of developing a grant proposal. The Murray-Calloway Endowment for Healthcare and the MSU Office of Sponsored Programs ended the day by hosting a Meet and Greet event held at the MSU Alumni Center. Special guests included Mr. Keith Travis of the Murray-Calloway Endowment for Healthcare, Mr. Miles Wilson, and Dr. Randy Dunn MSU president. The day's events provided an opportunity for various groups to obtain valuable information for their particular organization. It provided an opportunity to connect with Mr. Wilson's extensive network of funding sources. He has already reported to have connected a number of faculty and community partners to potential funders with simple e-mail communications. The day also allowed for these groups to make new contacts, develop potential partnerships, and collaborate on how we can all work together to move forward. The Office of Sponsored Programs will be hosting similar events in the future so stay tuned for how you can take advantage of these opportunities.

CONGRATULATIONS to our Grant Awardees

Judy Payne, Adolescent , Career, and Special Education, Kentucky Department for Technical Education, Professional Development for Teacher Educators, $6,750.

Tony Brannon, Agriculture, Kentucky Department of Agriculture, MSU Agriculture Field Day 2011, $10,000

Loretta Maldaner, Purchase Area Health Education Center, University of Louisville Research Foundation, AHEC State 2011-2012, $260,098

Loretta Maldaner, Purchase Area Health Education Center, University of Louisville Research Foundation, Regional Education-Purchase Area Health Education Center, $106,120

Michael Flinn, Biology, National Science Foundation, Collaborative Research: Stream Consumers and Lotic Ecosystem Rate, $6,228

Dayle Saar, Biology, Illinois Department of Natural Resources, Red Mulberries in Illinois: What is the Real Species and Where is the Real Range, $1,973.

Wade Northington, Breathitt Veterinary Center, U.S. Department of Agriculture, NAHLN-KY, $31,000

Wade Northington, Breathitt Veterinary Center, Kentucky Department of Agriculture, Classical Swine Fever Surveillance, $7,000

Jacqueline Hansen, Early Childhood and Elementary Education, University of Kentucky Research Foundation, Kentucky Reading Project, $43,687

Martin Milkman, Economics, Omicron Delta Epsilon, Chapter Grants Competition, $1,500

Renee Campoy, Education, University of Kentucky Research Foundation, Reading Recovery Project, $65,000

Jack Rose, Education, Leadership, Counseling, Eastern Kentucky University, Kentucky Center for School Safety, $125,930

Ted Brown, English, Japan Foundation, Project Jisseki, $41,857

Ron Milliner, Kentucky Academy of Technology Education, West Kentucky Education Cooperative, Project TAHOE, $1,675

Ron Milliner, Kentucky Academy of Technology Education, Kentucky Department of Education, Student Technology Leadership Program Showcase, $3,000

Kit Wesler, Mid-America Remote Sensing Center, U.S. Department of Agriculture, Geographic Information System for Land Between the Lakes, $83,678.52

Kit Wesler, Mid-America Remote Sensing Center, U.S. Forest Service, El Yunque Forest Plan Revision Support, $100,184

Kit Wesler, Mid-America Remote Sensing Center, Houston County Tennessee, Phase I Archaeological Survey, $4,614.69

Kit Wesler, Mid-America Remote Sensing Center, U.S. Department of Agriculture, GIS Technical Support to State Foresters, $30,770

Mark Blankenship, Management, Kentucky Real Estate Commission, Real Estate Education Project 2010-2011, $22,690

Halim Ayan, Engineering and Physics, National Science Foundation, Freeform Fabrication Based Micro-Plasma Modification for Tissue Scaffolds, $30,750

Alesa Walker, Teacher Education Services, Education Professional Standards Board, KTIP Training and Oversight Career and Technical Education, $8,822

Caroline Crump, Continuing Education, Eastern Kentucky University, Training Resource Center, $879,327

Doris Clark-Sarr, Adventures in Math and Science, U.S. Department of Education, AIMS I, $242,250

Doris Clark-Sarr, Adventures in Math and Science, U.S. Department of Education, AIMS II, $242,250

David DeVoss, Public Safety, Kentucky Office of Homeland Security, WKMS-FM/KEWS et al Communications Tower Generator Project, $61,043

Kate Lochte, Vice President of Institutional Advancement, FEMA, Fixed Generator for Multi-Use Communication Transmission Center Land Between the Lakes Tower Site-KEWS 40 Mont, KY, $54,551

Robert Pervine, Science, Engineering, and Technology, Northern Kentucky University, Regional Coordinator -Kentucky Center for Mathematics, $65,988

Featured Grant Awardee

Halim Ayan

The objective of this research is to develop a new plasma system and process to modify the surface function of a biological tissue scaffold. This novel printing process is a freeform microplasma surface patterning and biologics printing process. This printing process will produce micro-size patterns as well as print living cells and/or biomolecules such as proteins, growth factor, antibodies. The resulting tissue structures will have a wide range of application in regenerative medicine, disease pathogenesis study, drug discovery and testing, facilitating development of modern biology and in the synthesizing of cell/tissue-on-chip. One of the long term goals of this project is to be able to "print" human organs, such as heart, liver, etc. that will be readily available on-demand.

Thanks for submitting . . .

Tony Brannon, Agriculture, Kentucky Department of Agriculture

Loretta Maldaner, Purchase Area Health Education Center, U.S. Department of Agriculture

Loretta Maldaner, Purchase Area Health Education Center, University of Louisville Research Foundation

Dayle Saar, Biology, U.S. Department of Agriculture

Everett Weber, Biology, U.S. Department of Education

Everett Weber, Biology, Council on Postsecondary Education

Wade Northington, Breathitt Veterinary Center, Missouri Department of Postsecondary

Wade Northington, Breathitt Veterinary Center, Conservation U.S. Department of Agriculture

Bommanna Loganathan, Chemistry, Camille and Henry Dreyfuss Foundation

Martin Milkman, Economics, Omicron Delta Epsilon

Renee Campoy, Education, Council on Postsecondary Education

Yuejin Xu, Education, Council on Postsecondary Education

Robin Zhang, Geosciences, National Science Foundation

Daniel Claiborne, Industrial, Engineering, and Technology, National Science Foundation

Ron Milliner, Kentucky Academy of Technology Education, West Kentucky Education Cooperative

Ron Milliner, Kentucky Academy of Technology Education, Kentucky Department of Education

Kit Wesler, Mid-America Remoter Sensing Center, Houston County, Tennessee

Kit Wesler, Mid-America Remoter Sensing Center, U.S. Forest Service

Aleck Leedy, Engineering and Physics, National Aeronautics and Space Administration

Amber Schaudt, Office of the President, Ohio Campus Compact

Loretta Daniel, Western Regional Center for Emerging Technology, Tennessee Valley Authority

Shanna Burgess, Student Services, U.S. Department of Education

Alesa Walker, Teacher Education Services, Education Professional Standards Board

Lissa Graham, Theatre, Kentucky Foundation for Women

Caroline Crump, Continuing Education, U.S. Department of Health and Human Services

Jim Gantt, Telecommunications Systems Management, Kentucky Science and Technology Council

Doris Clark-Sarr, Adventures in Math and Science, U.S. Department of Education

Renee Campoy, Office of the Provost, Council on Postsecondary Education

Howard Whiteman, Watershed Studies Institute, National Science Foundation

Howard Whiteman, Watershed Studies Institute, U.S. Department of the Interior

If you:

- need assistance in developing an idea
- need assistance in determining a funder
- would like to submit a proposal
- would appreciate a review of your proposal
- need assistance in preparing a budget
- have questions about external funding
