Full Service for You

from the Office of Sponsored Programs

Fall 2012

A Word from the Director

Opportunities abound! In the past year more faculty and staff at Murray State are applying for external funding. The 2011-2012 fiscal year demonstrated an increase in the number of submissions from MSU (from 137 to 156) and in amount requested ($14.8M to $33.9M).

Are you interested in what funding is available your research, scholarly activity, or program? The Office of Sponsored Programs can assist you. Signing up for subject mailing lists will allow you to see funding opportunities that are more specifically linked to your interests. Funding opportunity databases such as SPIN (accessible from the OSP website) allow for specific searches. We can also help you devise strategies to find these opportunities and then assist in developing a proposal. Contact OSP for more information on how that project that you want to work on can get funded.

Racer Academy of Agriculture

The Murray State University Hutson School of Agriculture is expanding a secondary partnership program that will help address the demand for increased rigor and emphasis on college and career readiness. The program will form a link between secondary agricultural education and postsecondary education.

In 2010, the Hutson School of Agriculture began the initial phases for the Agriculture Bridge program now known as Racer Academy of Agriculture (RAA). The program offered two college courses in which secondary students were able to obtain both secondary and postsecondary credit. In the following semesters, the program doubled in size and there was a demand for a variety of additional courses.

The United States Department of Agriculture National Institute of Food and Agriculture (NIFA) provides a Capacity Building Grant for the Non Land Grant College of Agriculture Program. The program encourages awardees to carry out educational, research and outreach activities that address priority concerns of national, regional, state and local interest.

NIFA awarded $136,138 to expand the Racer Academy of Agriculture by developing new courses and increasing the number of secondary partners. The award will also be used to improve instructional procedure and gather data for evaluation, analysis and refinement.

As a result of the program, expansion students will benefit through gaining college course credit while in high school. The program also increases students' readiness for college and career and encourages them to pursue degrees in food and agricultural sciences.

The lead investigator for the program expansion is Dr. Tony Brannon, dean of the Hutson School of Agriculture. Dr. Kimberly Bellah and Brandon Wilson will also provide services of as co-project directors. Bellah will serve as project evaluator and Wilson will serve as coordinator of the RAA.

Murray State University Office of Sponsored Programs is proud to work with Dr. Brannon and the Hutson School of Agriculture in their efforts toward research and external funding.

How we service YOU!

SUBJECT MAILING LISTS

Murray State University Office of Sponsored Programs is always looking for ways to better serve you. It is important to us that you receive information regarding external funding that is relevant to you. Therefore, we would like to provide subject mailing lists to those that are interested. The mailing lists are divided up into subject areas to ensure you are receiving information about opportunities that apply to your work.

- Arts & Humanities
- Education
- Health & Mental Health
- Science, Technology, Engineering, Mathematics
- Economic & Community Development
- Agriculture
- Nursing

To subscribe to a list please email msu.sponsoredprograms@murraystate.edu. In the email subject line please type the area of your choice from the list above. You are welcome to subscribe to more than one list.
