Hours listed on your Audit and Component sheet must be entered in KFETS in appropriate semester/year and in appropriate component category in KFETS.
Make sure you have logged hours in KFETS for the correct semester/year: 20182019 Fall = Fall 2018. 20182019 Spring = Spring 2019

Example: If you marked '**Interaction with Families**' on your Audit and Component sheet for a course you took **Fall 2018**, you need hours logged in KFETS under '**Interaction with Families of Students**' for **20182019 Fall**.

The **Total Hours** you calculated above for each semester is the *minimum* number of hours you should have logged in KFETS.
