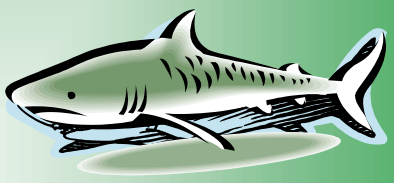
March 2012 Issue 6 Volume 3

The Off Shore

INDIVIDUALLY, WE ARE ONE DROP.

Dear Students,
I hope your semester is going well and you are keeping on top of your schoolwork. The White College Tutoring offers assistance to our students who wish to enhance their academic performance in classes. Our purpose is to help you develop academically and professionally in a friendly social environment. You are encouraged to work primarily with our White College professors and staff to keep on top of your studies.

As we work together to help you pre-register for the fall 2012 semester (April 16, Advance Scheduling 2012 Summer/Fall semester begins), I want to make sure you are aware of your options and have as much information as you need to register for fall 2012. Please take the time to consider your course selections carefully. You are expected to keep your faculty advisor informed about your successes and difficulties at all times. Although we have done our best to make the pre-registration instructions clear, we realize that you will still have questions, and some of the choices that you are presented with warrant a discussion with your advisor.



You should also be familiar with the university's core and major requirements. The best preparation for an advisory meeting is to develop an academic plan for the remainder of your semesters here. The academic plan should be coherent and reflect career objectives. Schedules for future semesters should point to the fulfillment of all the degree requirements in time for the planned graduation date.

We look forward very much to teaching you and supporting you in your education and growth– and to your being part of our shark family now and in the future.
Thank you!

Dr. C
Professor and College Head

TOGETHER, WE ARE AN OCEAN.
