Protection of privacy of student information:

The DPD follows the privacy policies set by Murray State University and the Family Educational Rights and Privacy Act of 1974. Faculty and student workers for the DPD are required to attend FERPA trainings. There are also online FERPA trainings that can be accessed.
The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records, including:

1. The right to inspect and review the student's education records within 45 days of the day the University receives a request for access. Students should submit to the registrar, dean, head of the academic department, or other appropriate official, a written request that identifies the record(s) they wish to inspect. The University official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed. A parent of a dependent student as defined in section 152 of the Internal Revenue Code may request permission to view a student’s educational records upon showing proof of dependency. Release of such information is at the discretion of the Registrar.

2. The right to request the amendment of the student's education records that are believed to be inaccurate or misleading. The student should write the University official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the University decides not to amend the record as requested by the student, the University will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for an amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent, as follows:
   a) Disclosure without the student's consent is permissible to school officials with legitimate educational interests. A school official is a person employed by the University in an administrative, supervisory, academic, research, or support staff position (including law enforcement unit personnel and health staff); the University attorney; appropriate community safety and emergency personnel to whom information regarding students is to be provided pursuant to KRS 164.9495; a person or company with whom the University has contracted (such as an attorney, auditor, or collection agent); a contractor, consultant, volunteer, or other person or entity to which the University has outsourced institutional services or functions, and who is limited as to use, maintenance, and re-disclosure of information; a person serving on the Board of Regents; or a student serving on an official committee, such as a disciplinary or
grievance committee, or assisting another school official in performing his or her tasks. In addition, the following groups are specifically recognized as “school officials” within the definition of FERPA for the limited purpose of receiving at any time listings of names and addresses of students, including in-coming students, and/or student directory information: MSU Alumni Association; Murray State University Foundation, Inc; a person or company who performs a service for MSU that serves a legitimate educational interest; authorized representatives of federal or State supported education programs if disclosure is in connection with an audit or evaluation of supported programs or for the enforcement of or compliance with legal requirements that relate to those programs.

A school official has a legitimate educational interest if the official needs to review or receive any education record in order to fulfill his or her professional responsibility or if the service to or for MSU is of a type that MSU would normally perform itself including one which MSU has outsourced.

b) FERPA allows the institution to routinely release information defined as "directory information." The following student information is included in the definition: the student’s name, addresses, telephone listings, campus e-mail address, date and place of birth, fields of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, enrollment status (including full-time, part-time, not enrolled), degrees (pending and received), awards or honors received and the most recent previous educational institution attended. When a student wants the directory information to remain confidential, an official request form must be completed in the Registrar’s Office within the first five days of class of the school term. If a student requests directory information withheld during a term and does not return to Murray State after that term, that request remains in force until such a time as a formal written statement removing that hold is received from the student rescinding that request. Murray State will release directory information to school officials or others with a legitimate educational interest.

4. The right to file a written complaint with the Family Compliance Office of the United States Department of Education concerning an alleged failure by MSU to comply with the provisions of FERPA.

a) The complaint must contain specific allegations of fact giving reasonable cause to believe that a FERPA violation has occurred. A complaint does not have to allege that a violation is based on a policy or practice at MSU.

b) To be timely, a complaint should be submitted to the Family Compliance Office within 180 days of the date of an alleged violation. The Family Compliance Office may extend the time limit
for good cause shown.

c) The complaint may be filed at: Family Compliance Office, U.S. Department of Education, 400 Maryland Ave, S.W., Washington D.C., 20202.

Paper files that faculty keep are housed in file cabinets in faculty offices and so are not available to the public. These could include printouts of transcripts, advising records, application to admission to programs or other information the faculty member feels the need to keep. Applications for admission to the DPD and Verification Statements are kept in a file cabinet in the DPD Director’s office.

**Access to personal files:**

Murray State faculty have access to student academic records, transcripts, class schedules, degree audits, and grades through the university computer portal, MyGate. Students have access to all of their education records through the same platform.

The following statement can be found on the Murray State University website regarding access to personal files. “The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. This includes but is not limited to Social Security numbers, class rolls, advising files, tests, MAP reports, and a student’s class schedule. These rights are listed below. As an employee of Murray State University you are expected to comply with this federal law. The Registrar’s Office is the official source for all student data, and the Registrar is the authorized party to determine right of access to student data. Murray State identifies faculty members as school officials with a right to access certain specified student records based on an appropriate ‘need to know.’”

Several career fair events are designed and sponsored by the office throughout the year to connect students to employment opportunities.
Career Services also provides other resources for students. These include a list of part-time employment for both on and off campus employers through work-study programs, a list of fulltime position vacancies, the National Student Exchange program, where students can attend another college or university for up to one year. This program can quickly assess and identify a student’s work related interests, abilities and values and compare those to data provided by individuals in those occupations. Individual career counseling and the use of a comprehensive career library housed in Waterfield Library is provided in conjunction with “Discover” to assist students in their selection of a career action plan.
