Murray State's Telecommunications Systems Management Program Teams up with Computer Science and Information Systems and Regional Business and Innovation Center to Make a P.O.I.N.T

Murray State University's Program of Distinction in Telecommunications System Management (TSM), Computer Science and Information Systems and the Regional Business and Innovation Center (RBIC) has teamed together to create the Professional Organization of Information and Network Technologies (POINT). POINT 's mission is to introduce and share knowledge in the high-tech fields of software development and information technology, while providing environments for professionals to network on a regular basis. With meetings every month in centralized locations around Western Kentucky, POINT has gathered individuals from a variety of companies and locations to assist industry leaders in sharing information. The meetings are held on the second Tuesday of each month, rotating between locations in Murray, Paducah, Madisonville and Hopkinsville.

Professional speakers have

The evening will start with networking opportunities for individuals where light appetizers will be provided. Following mingling there will be a featured guest speaker (TBA) to address attendees about an important topic in the telecom or information technology industry. POINT was created to provide these opportunities for individuals in the industry; however, the event is open to anyone in the community. There is no registration or membership fee but we do ask that anyone interested in participating register for the event. If you would like to be added to the POINT mailing list to receive updates on meeting locations and times please contact the individual below.

For more information on company sponsorship opportunities please contact Amanda Pittman Roach at (270) 809-3501 or amanda.roach@murraystate.edu. You can also visit our website at www.murraystate.edu/rbic/point
