A Word from the Director

Question - When should you contact the Office of Sponsored Programs about a grant that you want to submit?

Answer - As soon as you began thinking about your funding needs. OSP can help you look and find a funding source. We can also help you think through your idea. What do you need in your budget? What is the format needed? How is your idea best presented? What should your timeline be to get it completed and routed without the stress of the last minute? OSP has years of experience with all types of funding mechanisms from all types of sponsors. Why not tap into this resource?

John A. Roark, Jr.

OSP Spotlight

Captain Robert Bringhurst

Kentucky Commercial Mobile Radio Service Board

Robert Bringhurst, one of the head officers for Murray State University’s public safety, has recently helped with getting another grant for the safety department. This is not a first for Captain Bringhurst, as he has helped MSU’s safety department receive multiple grants over the years.

This grant, in the amount of $80,436.44 from the Kentucky Commercial Mobile Radio Service Board, will allow the MSU Safety department to install another CAD service (Computer Automation Dispatch). CAD allows the dispatcher to receive calls and look up previous information recorded at the same time.

Before this grant, the department only had one dispatch station to take all calls, record all calls, and research any previous calls or records that had been made. This grant will not only allow more calls to be received but will also allow for better research to be done when it is needed.

This grant, along with the others received by the MSU safety department is extremely important, not only to Murray State, but also to the Murray-Calloway County community. Since the 2009 ice storm, the MSU safety department has been the emergency center for the whole county.

“This really will put us on the forefront of communication for public safety,” said Captain Bringhurst. “Were still working, upgrading things on our own- its coming along. Hopefully this will lead to our next grant, what we want to do if we could is upgrade the furniture and make better work conditions for the officers.”

- Madison Johnson
CONGRATULATIONS to our Grant Awardees

Barbara Washington, Adolescent, Career and Special Education, Kentucky Department for Technical Education, Field Based Leadership Projects, $2,572

Tony Brannon, Agriculture, Council for Burley Tobacco, Evaluation of Chemical Topping in Burley Tobacco, $5,000

Jay Morgan, Vice President for Academic Affairs, National Science Foundation, Research Fellowship for Scot Peterson, $22,000

Loretta Maldaner, AHEC, University of Louisville School of Medicine, AHEC-State 14-15, $15,000

University of Kentucky Research Foundation, Rural Hospital Flexibility Program, $16,000

David White, Biological Sciences, US Forest Service, NADP KY 99 Project, $3,008

George Kipphut, Geosciences, US Geological Survey, Cooperative and Collocated Science Between the USGS and Murray State University, $25,000

Robin Zhang, Geosciences, Kentucky Space Grant Consortium, A Mobile and Web-Based Geospatial Technology Workshop for K-12 STEM Teachers, $4,930

Yuejin Xu, Educational Studies, Leadership and Counseling, Council on Post-Secondary Education, Enriching Science Learning through Simulations and Interdisciplinary Problem-Solving, $99,000

Dana Manley, Nursing, Tobacco Prevention Enhancement Site, Implementation of Tobacco Free Murray State University, $1,000

Aleck Leedy, Institute of Engineering, Kentucky Space Grant Consortium, Autonomous Road Trip Game Robot, $9,088

Gina Winchester, Office of Regional Outreach, West Kentucky Educational Cooperative, Young Leaders in Action, $29,700

Cindy Clemson, Service for Students with Learning Disabilities, Office of Vocational Rehabilitation, College of Career Experience Post Secondary Transition Program at Murray State, $4,500

Alesa Walker, Teacher Education Services, Education Professional Standards Board, KTIP, $2,235

Caroline Atkins, Training Resource Center, Eastern Kentucky University, Cultural Diversity, $378

Grant and Contract Activity

Barbara Washington, Adolescent, Career and Special Education, Kentucky Department of Education

Tony Brannon, Agriculture, Kentucky Department for Technical Education

David Ferguson, Agriculture, BASF

Beth Rice, Applied Health Sciences, National Food Service Management Institute

Alexy Arkov, Biological Sciences, National Institutes of Health

Terry Derting, Biological Sciences, National Science Foundation

Suguru Nakamura, Biological Sciences, National Institutes of Health

Tim Spier, Biological Sciences, US Fish and Wildlife Service

David White, Biological Sciences, US Forest Service

Debbie Reed, Breathitt Veterinary Center, Kentucky Department of Agriculture; Kentucky Department of Agriculture

George Kipphut, Geosciences, US Geological Survey

Echo Wu, Educational Studies, Leadership and Counseling, American Psychological Foundation

Rusty Jones, English, National Endowment for the Arts; Toyota Motor Manufacturing

Haluk Cetin, Geosciences, National Science Foundation; America View

Bassil El-Masri, Geosciences, Kentucky National Aeronautics and Space Administration EPSCoR

Gary Stinchcomb, Geosciences, National Science Foundation

Kevin Perry, Institute of Engineering Technology, National Science Foundation

Dina Byers, Nursing, Health Resources and Services Administration; Health Resources and Services Administration

Dana Manley, Nursing, Tobacco Prevention Enhancement Site

Gina Winchester, Office of Regional Outreach, West Kentucky Educational Cooperative

Roy Dunaway, Public Safety, Kentucky Office of Homeland Security

Cindy Clemson, Service for Students with Learning Disabilities, Office of Vocational Rehabilitation
If you:

- need assistance in developing an idea
- need assistance in determining a funder
- would like to submit a proposal
- would appreciate a review of your proposal
- need assistance in preparing a budget
- have questions about external funding

Kentucky EPSCoR - Collaborative Research Development Program - * Before submitting an application * contact KY EPSCoR Director Rick Kurzynske to ensure that your proposal is a good fit for the program (kurzynske@kyepscor.org or 859-246-3226).

This EPSCoR initiative is intended to foster the development of large-scale multi-investigator research programs, centers, or institutes within the Commonwealth that will become competitive for Federal Research & Development funding through agency, interagency, and multi-agency programs (NSF, EPA, DOE, DOD, NIH, USDA, NASA, etc.) Awards provided through the Collaborative Research Development Program are intended (1) to bring groups together to discuss the possible formation of multi-investigator programs, centers, or institutes and (2) to support a collaborative team formed to develop proposals seeking program funding. Assistance is offered in two phases. Phase 1 is directed toward assembling a collaborative research group and identifying a research initiative; and Phase 2 is directed toward securing extramural funding for the research initiative. Investigators may apply for a Phase 2 without applying for a Phase 1 grant.

Proposals, for either Phase, focused within one of the five priority research areas of Kentucky’s Science and Innovation Strategy will be given priority consideration. These areas include: Agriculture & Bioscience, Energy & Environmental Technologies, Human Health & Personalized Medicine, Information Technology & New Media, and Material Science & Advanced Manufacturing.

Southern Sustainable Agriculture Research & Education - Each year, Southern SARE invites applicants to submit proposals for the various grant opportunities that are offered. The application process always begins with the release of Calls for Proposals. Applicants are strongly encouraged to download and read the Call for Proposals before applying for a grant. All the rules and guidelines and everything you need to complete the application process and successfully submit your project can be found in the Call for Proposals. If after reading a call, you still have questions about whether that grant is best for your ideas, contact Southern SARE at ssare@uga.edu.

Research and Education Grant CFP is now open. Application deadline for pre-proposals is June 1, 2015 at 11:59 p.m. EST. Learn more about systems research before applying for this grant.

Large Systems Research Grant CFP is for information purposes only. Learn more about systems research before applying for this grant.

Graduate Student Grant CFP is now open. Application deadline is May 4, 2015 at 11:59 p.m. EST.

Professional Development Program CFP is now open. Application deadline for pre-proposals is June 1, 2015 at 11:59 p.m. EST.

Producer Grant Program CFP is for information purposes only. The 2015 Producer Grant CFP will be released September 2015.

On-Farm Research Grant CFP is for information purposes only. The 2015 On-Farm Research Grant CFP will be released September 2015.

Sustainable Community Innovation Grant CFP is now open. This special Call for Proposals specifically focuses on local and regional food systems. Application deadline is May 4, 2015 at 11:59 p.m. EST.
How we serve YOU!

SUBJECT MAILING LISTS

Murray State University Office of Sponsored Programs is always looking for ways to better serve you. It is important to us that you receive information regarding external funding that is relevant to you. Therefore, we would like to provide subject mailing lists to those that are interested. The mailing lists are divided up into subject areas to ensure you are receiving information about opportunities that apply to your work.

- Arts-Humanities
- Education
- Health-Mental Health
- Science, Technology, Engineering, Mathematics
- Economic-Community Development
- Agriculture
- Nursing

To subscribe to a list please email msu.sponsoredprograms@murraystate.edu. In the email subject line please type the area of your choice from the list above. You are welcome to subscribe to more than one list.

FUNDING OPPORTUNITY DATABASES

Info Ed/SPIN

InfoEd is a software provider to support Research Administration electronically. How can this help you?! There are two services provided by InfoEd that can benefit the researchers.

SPIN, is the world’s largest database of funding opportunities. This database can be accessed as a funding opportunity search engine. The link can be found on the OSP website in the Funding Opportunity section.

GENIUS is a central location for the researcher to house their curriculum vitae details. This takes the form of a profile created by the researcher. Through the profile the researcher also has access to email updates of funding opportunities tailored to their work. To set up a profile or to update a profile contact Wendy Wilson at wwilson17@murraystate.edu or access the user guide on the OSP website in the Funding Opportunities page.

GRC

Grant Resource Center provides a funding opportunity database that includes private and federal announcements. A link to the Grant Search database is located in the Funding Opportunities section on the OSP website. To obtain the username and password required to access the database email msu.sponsoredprograms@murraystate.edu.

DON’T FORGET:

Check our website for up to date information!
