Welcome back! I hope that the Spring Semester is going well. I’d like to take this opportunity to introduce you to our newest staff member – Andrew Cain. Andrew joined OSP in December as our Grant Specialist (the position formerly held by Wendy Wilson). Andrew will be helping faculty and staff look for funding opportunities, develop proposals, interpret guidelines, review proposals vis-à-vis the guidelines and other assistance. Please feel free to contact Andrew (3537 or gcain@murraystate.edu) for help with your funding needs.

Kudos to the MSU faculty and staff for applying for more funding to support research, scholarly activity and other programs in FY12 than in FY11. There were 161 submissions requesting $33,911,822.84 in FY12 compared to 139 submissions requesting a total of $14,867,391 in FY11.

As budgets tighten and funding becomes more competitive every edge that you can get is important. Let OSP help you plan your project and develop a proposal. Have several sets of eyes read multiple drafts of the proposal. Remember, we are here to help!

John A. Roark, Jr.

How we service YOU!

SUBJECT MAILING LISTS
Murray State University Office of Sponsored Programs is always looking for ways to better serve you. It is important to us that you receive information regarding external funding that is relevant to you. Therefore, we would like to provide subject mailing lists to those that are interested. The mailing lists are divided up into subject areas to ensure you are receiving information about opportunities that apply to your work.

- Agriculture
- Arts-Humanities
- Economic-Community Development
- Education
- Health-Mental Health
- International
- Nursing
- Science, Technology, Engineering, Mathematics

To subscribe to a list please email msu.sponsoredprograms@murraystate.edu. In the email subject line please type the area of your choice from the list above. You are welcome to subscribe to more than one list.

FUNDING OPPORTUNITY DATABASES

Info Ed/SPIN

InfoEd is a software provider to support Research Administration electronically. How can this help you? There are two services provided by InfoEd that can benefit the researchers.

SPIN, is the world's largest database of funding opportunities. This database can be accessed as a funding opportunity search engine. The link can be found on the OSP website in the Funding Opportunity section.

GENIUS is a central location for the researcher to house their curriculum vitae details. This takes the form of a profile created by the researcher. Through the profile the researcher also has access to email updates of funding opportunities tailored to their work. To set up a profile or to update a profile contact Andrew Cain at gcain@murraystate.edu or access the user guide on the OSP website in the Funding Opportunities page.

Grant Resource Center

Grant Resource Center provides a funding opportunity database that includes private and federal announcements. A link to the Grant Search database is located in the Funding Opportunities section on the OSP website. To obtain the username and password required to access the database email msu.sponsoredprograms@murraystate.edu.
