HDL Comprehensive Exam Study Guide

The following is a list of the essential information covered in each of the HDL core courses. This is a good starting point for the development of your response for the HDL Comprehensive Exam. It is also recommended that you review the common assignments from the core classes that you have posted on LiveText.

The comprehensive exam will be your analysis and response to a provided case study, using your concentration as the framework and information from each of the core courses. Your response should be approximately 10-15 pages of text (excluding title page and references), utilize APA style, and be submitted via Canvas.
