Initial Mathematics Placement

All undergraduate students at Murray State University must take at least one course satisfying the Mathematics University Studies requirement, however different majors benefit from different coursework.

1. Determine the Mathematics courses required for the student’s major.
2. Consult the student’s ACT and Placement Scores to determine if the student meets the prerequisites for the relevant Mathematics course. Compare to the chart below and the graph on the reverse side of this sheet:

3. If the student cannot be placed directly into the entry-level Mathematics course for their major because they do not meet the prerequisites for that course, the student should consider taking a COMPASS Algebra or the relevant KYOTE Exam. If the student achieves a sufficient score to meet the prerequisite for this class, the student may be registered for the class.
4. Based upon all relevant scores, if the student does not meet the prerequisites for this entry-level Mathematics course, the student should be registered for an appropriate prerequisite course (see the chart above and on the reverse side).
Other options for those with no Math ACT score or a Math ACT below 21:

- Take the KYOTE College Readiness Exam and score at least 27. Scores below 27 indicate placement into MAT 095, 096, or 097.
- Take the KYOTE College Algebra Exam and score at least 14. Scores below 14 indicate placement into MAT 095, 096, or 097.
- Take the COMPASS Algebra Exam and score at least a 50. Scores below 50 indicate placement into MAT 095, 096, or 097.

For a student wanting to get into MAT 120, MAT 130, MAT 140, MAT 145, begin on this path where your ACT score allows.

Other options for those with no MAT ACT score or a Math ACT below 19:

- Take the KYOTE College Readiness Exam and score at least 22. Scores below 22 will indicate placement into MAT 095 or 096.
- Take the COMPASS Algebra Exam and score at least a 36. Scores below 36 will indicate placement into MAT 095 or 096.

For a student wanting to get into MAT 117, MAT 135, MAT 115, or MAT 215, begin on this path where your ACT score allows.

Other options for those with no Math ACT score or a Math ACT below 20:

- Take the KYOTE College Readiness Exam and score at least 24. Scores below 24 indicate placement into MAT 095, 096, or 097.
- Take the COMPASS Algebra Exam and score at least a 41. Scores below 41 will indicate placement into MAT 095, 096, or 097.

For a student wanting to get into MAT 150, begin on this path where your ACT score allows.

Other options for those with no Math ACT score or a Math ACT below 23:

- Take the KYOTE Calculus Exam and score at least 9. For scores less than 9, the student should fulfill a MAT 150 credit by taking MAT 140 and MAT 145; it is recommended to take MAT 140 before taking MAT 145.

For a student wanting to get into MAT 150, begin on this path where your ACT score allows.
For a student wanting to get into MAT 220, begin on this path where your ACT score allows.

Other options for those with no Math ACT score or a Math ACT below 23:
Take the KYOTE Calculus Exam and score at least 14. For scores below 12, the student should take the KYOTE College Readiness Exam or the KYOTE College Algebra Exam for placement into MAT 095, MAT 096, MAT 097 or MAT 120, MAT 140.

For a student wanting to get into MAT 230, begin on this path where your ACT score allows.

Other options for those with no Math ACT score or a Math ACT below 24:
Take the KYOTE Calculus Exam and score at least 12. For scores below 12, the student should take the KYOTE College Readiness Exam or the KYOTE College Algebra Exam for placement into MAT 095, MAT 096, MAT 097 or MAT 130.

For a student wanting to get into MAT 250, begin on one of these paths where your ACT score allows.

Other options for those with no Math ACT score or a Math ACT below 26:
Take the KYOTE Calculus Exam and score at least 14. For scores of 9-13 the student may consider MAT 140+145 or MAT 150; for scores under 9 the student should take the KYOTE College Algebra Exam for placement into MAT 140 and MAT 145.

Or if your Math ACT is at least 23:
MAT 140 & 145
