Welcome to the Summer Art Workshop 2016!

Thank you for registering for this fun and exciting week of art classes and activities. I am looking forward to meeting everyone and getting to work in the drawing, painting, sculpture and animation studios! This year we have 58 campers from 7 states joining us on Murray State University’s campus. In addition to the classes listed on the website, the students will take a fifth class that will teach them how to work in a collaborative art setting. The 58 campers will be divided into 3 groups (A, B, and C) moving through three classes each day. We have some exciting projects planned as well as some fun evening activities.

Attached you will find some forms you will need to fill out and return and our daily schedule. In addition to the art activities you will also have access to our state of the art Bauernfeind Student Recreation and Wellness Center. This is where our pool party will be held on the last night of the workshop. Swimming is not required; if you choose not to swim we will have some other games and activities for you.

All meals are covered in the cost of tuition, but a small amount of spending money for the week may be needed for anything additional, including a trip to the local Dairy Queen. On the back of this letter you will find a list of suggested items to pack for the workshop. We will provide all of the materials for the art classes; some of the professors have provided suggested items to bring for their classes.

So pack your bags and be ready for a week you will remember! Registration will take place at the Curris Center at Murray State University on Chestnut Street from 1:00-2:30 pm. The workshop will start at 3:30 pm with a tour of campus. If you have any questions, please contact me at nhandbryant@murraystate.edu or 270-809-5387 (office) and 270-293-6556 (cell). We also have a Facebook page, “like” us to get a sneak preview of this year’s workshop! www.facebook.com/msu.saw

**Sculpture and 3D printing with Chris Lavery**
Digital Sculpture: Making Digital Things Real
Artists, designers, engineers, entrepreneurs, hackers, makers, tinkerers and hobbyists have embraced 3D printing. This workshop will familiarize participants with the process of 3D printing and how 3D printers work. Students will design a virtual 3D object then print it out on a 3D printer to take home with them.

**Mixed Media Painting with Mike Martin**
Mixed Media Painting: Acrylics & Collage with Mike Martin
Experiment, explore, and expand on the basics when working with acrylic paint and collage while learning about color, composition, brushwork, line, pattern, and texture. Students will use different techniques with a variety of papers and magazines to create new meanings, new textures, and overcome new challenges. Come away with an understanding of this medium and its creative/expressive possibilities.

**Stop-Motion Animation with Kristin Reeves:**
Stop-Motion Animation
Students will bring a variety of materials to life through stop-motion animation. In-camera editing techniques will be used to produce short animated sequences combining 2-D and 3-D handcrafted methods with digital cameras.

**Drawing and Animation with Rebecca Williams**
Freeing Forms
In this animated session, we will free ourselves from the confines of perfectionism and free our drawings from the confines of stasis. After experimenting with wet drawing media drawing we will bring our drawings to life through GIF animation.

**Collaborative Creativity with Nicole Hand and Antje Gamble**
In and Out of the Box
Artists are problem solvers, creative thinkers and inventive designers. In this class each group will work together to create collaborative and individual works that focus on critical thinking, contemporary art inspiration and inventive design. We will use traditional and experimental materials to problem solve and collaborate as a group.

**Art History with Antje Gamble**
“Uncanny Encounters with Contemporary Sculpture”
In this talk, Prof. Gamble will discuss the use of the uncanny in the work of three contemporary sculptors: Yinka Shonibare MBE, Maurizio Cattelan and Chen Wenling. Each sculptor deploys the uncanny in different ways to entice and then confront the viewer in critical dialogues about important social and art historical issues, from the legacy of colonialism to the commodification of culture.
