Certificate
Registered Dietian (R.D.)
School of Nursing and Health Professions

The School of Nursing and Health Professions offers baccalaureate and doctorate degrees in nursing as well as other health professions offered through the Department of Applied Health Sciences.

Department of Applied Health Sciences

408B Applied Science Building
270-809-5742

Chair: Michael Kalinski. Faculty: Crouch, Dodd, Dwelly, J. Erdmann, K. Erdmann, Paine, Reeves, Stanczyk, Terry.

The Department of Applied Health Sciences offers the following programs dealing with health promotion, pre-health professional, clinical practice, and rehabilitation sciences.

The bachelor of science degree in public and community health and three track options: healthcare administration, health education and promotion, and health information administration. It is a dynamic program that is interdisciplinary in nature and provides options that allow students to prepare for various careers in public and community health organizations, such as hospitals, government agencies, or non-profit organizations. The program also prepares students to sit for professional certifications/licensures, and/or pursue graduate studies in related fields.

A bachelor of science degree is offered in exercise science with three tracks available: movement science, pre-health professional, and wellness. This program prepares students for employment in health-related fields, graduate programs or to take national certification exams through the American College of Sport Medicine, the National Strength and Conditioning Association, or other recognized entities in related fields.

A bachelor of science degree is offered in nutrition, dietetics and food management with tracks in dietetics, food management, or nutrition and foods. The graduate Dietetics Internship Program prepares students to become Registered Dietitians (R.D.). These graduate internship hours may be applied to completion of the Master of Science in Nutrition.

A Master of Science in Athletic Training (MSAT) degree is offered. This program prepares students to sit for the Board of Certification examination for athletic trainers.

Note: L=literature; R=research; PT=professional training. See page 68.

Accreditations

The undergraduate Exercise Science program is accredited through the Commission on Accreditation of Allied Health Education Programs (CAAHEP). The undergraduate Dietetics and the graduate Registered Dietitian Certificate programs are accredited through the Accreditation Council for Education in Nutrition and Dietetics (ACEND). The graduate Athletic Training program is accredited through the Commission on Accreditation of Athletic Training Education (CAATE).

Exercise Science

The Area in Exercise Science (EXS) is accredited through the Commission on Accreditation of Allied Health Education Programs (CAAHEP). Accreditation through CAAHEP ensures that the program meets specific standards and provides a quality educational opportunity that delivers the knowledge, skills and abilities required of exercise science professionals.

The EXS program is divided into two tracks (Pre-Health Professional and Wellness) with choices in each track designed to meet the varied interests of students. Exercise Science professionals often collaborate with other health care professionals to provide clients with information designed to manage and/or prevent health issues. Students who are passionate about working with people interested in developing healthier lifestyles through a combination of educational programs and exercise should consider the Wellness track. Students who choose the Wellness track complete the core course requirements and then choose from restricted electives based on their intended career path. Graduates may choose to work independently as a business owner or with other health care professionals in a variety of settings, including hospital wellness centers, cardiac rehabilitation, corporate fitness programs, private industry, and other wellness-related facilities. Graduates may also consider pursuing a graduate degree in related fields.

Health care professionals are in high demand nationwide. Students choosing to pursue graduate programs in athletic training, occupational therapy, physical therapy, physician assistant, or other health-related fields should consider the Pre-Health Professional track. The Pre-Health Professional track allows the student to complete the EXS core course requirements and the prerequisite coursework required for their intended graduate program. Students should note that completing MSU’s EXS Pre-Health Professional Track does not guarantee acceptance to graduate programs. Acceptance into graduate programs is challenging and highly competitive. Successful applicants demonstrate a competitive academic history, have knowledge of the profession, and are motivated to succeed. Considering these high standards necessary for graduate programs and MSU’s interest in each student’s career success, criteria have been established that must be met prior to taking specific upper-level EXS courses. Students who do not meet these requirements are encouraged to evaluate their career choice so the remaining coursework can be tailored to prepare them for the workforce or other graduate programs at the time of graduation from MSU.

The EXS Pre-Health Professional program’s flexible design provides the opportunity for students, with advisor guidance, to tailor their coursework to meet specific demands that graduate programs require for admittance. Requirements necessary for acceptance to graduate programs differ depending on the field of study and the particular graduate program. Students are strongly encouraged to explore potential graduate programs or career options and narrow their areas of interest early in their undergraduate program. This will assist the student, under the guidance of their academic advisor, in developing an academic plan of action. Although academic advisors will be assisting students, it is the responsibility of the student to ensure all prerequisite coursework required for a specific graduate program has been completed.
With the exception of first semester freshman, all students must have a cumulative grade point average (GPA) of 2.0 and have completed all developmental courses prior to declaring exercise science as an area. Students must earn a C or better in all EXS core and track-specific courses. A cumulative GPA of 2.5 for students pursuing the Wellness track and a 3.0 for students pursuing the Pre-Health Professional track is required prior to enrollment in most senior-level courses. The 2.5 (or 3.0 depending on the program) GPA must be maintained to graduate.

Prior to graduating with an EXS degree, all EXS students are required to take a comprehensive exam over material covered in core EXS classes. Students must earn at least a 75% on the exam to graduate with an EXS degree. The exam is offered on select dates, and is taken by seniors after all core classes are completed.

**Movement Science Track**
Students wishing to pursue athletic training are eligible to transition to the movement science track. Requirements include:
- cumulative grade point average of 2.75 or greater,
- successful completion of 60 credits, including EXS 101, BIO 227, 228, 229, and 230 (or equivalent).

**Pre-Health Professional Track**
Prior to taking EXS 304, 320, 390, 402, 420, 421 and/or 435, students must have
- earned a grade of C or better in all EXS core and track-specific courses,
- completed at least one of the following with a grade of C or better: CHE 111, CHE 201, PHY 130, and PHY 131
- earned a minimum 3.0 cumulative grade point average. The 3.0 GPA must be maintained to graduate.

**Wellness Track**
Prior to taking EXS 415, 433, 445, 446, 465, 469, and 470, students must have
- earned a grade of C or better in all EXS core and track-specific courses,
- earned a minimum 2.5 cumulative grade point average. The 2.5 GPA must be maintained to graduate.

Any EXS student that is not adequately progressing through the program and/or has not met program requirements are held to the following:
- If a student earns below a C, the course must be retaken the next opportunity it is offered. If the course is not offered the next semester (or circumstances do not permit), but the student meets the cumulative GPA requirements, they will be allowed to progress in other courses.
- If on the third attempt, the student is still unable to earn a C or better, the course cannot be repeated again for the EXS program and the student can no longer progress through the EXS program.

Advisor-approved career elective

Total Curriculum Requirements .................................. 120 hrs
Exercise Science Minor ............................................. 21 hrs
EXS 101, 333, 350, 351, 353, 370; and at least five hours from the following: EXS 295, 301, 354, 356, 375, 385, 415, or 465. A minimum 2.50 GPA is required for admission and retention. Students must earn a grade of C or higher in all minor coursework. If an exercise science minor student’s GPA (minor or overall) drops below 2.50, the student will have one semester to improve the GPA. If after the subsequent semester, the GPA (overall or minor) is below 2.50, the student will no longer be able to remain in this minor program.

Nutrition, Dietetics and Food Management

The nutrition, dietetics, and food management program offers a B.S. degree with a choice of three options: dietetics, food management, and nutrition and foods, as well as a Master of Science.

The Dietetics Track focuses on the application of principles of nutrition, physiology, biochemistry, behavioral and social sciences and management to promote optimal health in individuals, and leads to credentialing as a Registered Dietitian (R.D.). The R.D. is the nationally recognized credential in nutrition. It is required for most employment in the health care industry and preferred for many other employment opportunities in foods and nutrition. The admission requirements for the Dietetics Track are explained below. Upon successful completion of the B.S. degree program in Dietetics, a graduate must complete an accredited post-baccalaureate supervised practice program (Dietetic Internship Program) to gain eligibility for the national examination for R.D. status. Murray State also offers a post-baccalaureate dietetic internship program.

The Food Management Track prepares students for careers in the hospitality industry. Skills developed can be applied to a wide range of jobs across the industry. There will be no shortage of exciting opportunities and fresh challenges in the years ahead. Necessary skills include basic business skills, motivation, and supervisory skills as well as food purchasing, preparation, and service. Careers you can explore include theme parks, country clubs, corporate dining, university dining, bed and breakfast, restaurants, consulting, and sales.

The Nutrition and Foods Track provides a broad education in basic nutrition and food studies leading to a variety of career possibilities in food and nutrition. Today’s interest in healthy lifestyles is translating into a remarkable range of career opportunities related to health, diet, and fitness. Graduates may be employed in a variety of settings such as education, government agencies, school, media, food management, or any position where the R.D. credential is not required.

Dietetics Admission Requirements

The Dietetics Program is accredited by the Accreditation Council for Education in Nutrition and Dietetics as a Didactic Program in Dietetics (DPD). In order to be admitted into the DPD, a student must have completed at least 45 credit hours and have a GPA of 3.0 or above with a B or better in NTN 230, 231, and 300 and at least a C or better in BIO 115, CHE 105, CHE 210, and MAT 140. In order to obtain a Verification Statement upon completion of the DPD, a student must have a GPA of at least 3.0 and at least a C in all DPD required courses.

Upon completion of necessary prerequisite courses, students may apply for formal admission to the dietetics track. This typically occurs the second semester of the sophomore year of study. The student should request an application from the DPD Director. Admission is competitive and based on available space.

Nutrition Graduate Programs

The Master of Science (M.S.) in Nutrition is a 35-credit-hour program which enables graduates of the Registered Dietitian (R.D.) certification program to pursue additional higher education in the areas of professional counseling, education, science, statistics, psychology, management, and nutrition research. The M.S. in Nutrition prepares students to effectively compete in a growing job market in which 5 of 10 dietitians nationally hold master’s degrees. Advances in nutrition and genetic research, aging demographics, and accelerating rates of nutrition-related diseases such as obesity and diabetes fuel the demand for highly trained nutrition professionals.

Master of Science: Nutrition CIP 19.0501

Requirements for Admission
Applicants must meet the Murray State University requirements (see Graduate Admissions). Additional requirement for admission is as follows.
• Students must receive appointment to the MSU Dietetic Internship Program from the Commission on Dietetics Education’s agent.

Total Course Requirements ........................................... 35 hours
NTN 640 Dietetics Clinical Training Primer
NTN 641 Nutrition Therapy I
NTN 642 Management Practice in Dietetics
NTN 643 Community Nutrition PT
NTN 650 Dietetic Clinical Nutrition Assessment and Care
NTN 651 Medical Nutrition Therapy II
NTN 652 Dietetics Clinical Practice in Long Term Care
NTN 653 Advanced Clinical Practice
NTN 656 Nutrition Research Literature Review
NTN 660 Research Project in Nutrition I
NTN 661 Research Project in Nutrition II

Approved elective ..............................................................(1-4 hrs)

Other Degree Requirements
Student must pass the Registration Examination after 18 hours of study to continue in the program.
CERTIFICATE:
Registered Dietitian (R.D.)

ACCREDITED BY: Accreditation Council for Education in Nutrition and Dietetics (ACEND)

Requirements for Admission
Applicants must meet the Murray State University requirements (see Graduate Admissions) and students must receive appointment to the MSU Dietetic Internship Program from the Commission on Dietetics Education’s agent.

Total Course Requirements............................................ 18 hours
NTN  640  Dietetics Clinical Training Primer
NTN  641  Nutrition Therapy I
NTN  642  Management Practice in Dietetics
NTN  643  Community Nutrition
NTN  650  Dietetics Clinical Nutrition Assessment and Care
NTN  651  Medical Nutrition Therapy II
NTN  652  Dietetics Clinical Practice in Long Term Care
NTN  653  Advanced Clinical Practice

Public and Community Health
The Bachelor of Science in Public and Community Health is designed to prepare students to:
• promote the health of individuals and groups within the community;
• demonstrate the ability to think critically and behave ethically according to professional standards;
• work with individuals, groups, and families in a variety of settings, such as worksite, community health organizations, university-based health services, wellness centers, and community health programs at the local, state, or federal level;
• communicate with clients, families colleagues, and all stakeholders in health programs;
• sit for professional certifications/licensure; and/or
• pursue graduate studies in related fields.
A 2+2 curricular plan is available for students in the Kentucky Community College System.

Healthcare Administration Emphasis
This specialization provides students with the basic knowledge, skills, and applied studies needed for entry-level positions in a variety of settings, such as hospitals, physician group practices, nursing homes, home health agencies, consulting firms, pharmaceutical companies, and non-profit organizations. It can also be the springboard to a graduate program for those seeking higher-level positions. The curriculum includes business aspects of health care organizations, such as finance, management, and marketing, as well as health care planning, policy, and special event management.

Health Education and Promotion Emphasis
This specialization prepares students for careers in disease prevention, health and wellness promotion, and addressing health disparities. The theoretical and experiential education prepares students to make a difference in local, regional, national, and global settings. The health education and promotion curriculum includes advanced concepts in consumer health, substance abuse, human sexuality, nutrition, mental health, and evaluation and administration of health programs. These areas prepare students to sit for the national examination to earn professional recognition as a Certified Health Education Specialist (CHES).

Health Informatics Administration Emphasis
This specialization focuses on the increasing use of technology in the health care profession. A health informatics administrator plays a role in collecting, interpreting, analyzing, maintaining, and protecting data that health care providers rely on to deliver quality care. The curriculum includes aspects in coding and classification systems, management of patient health information, and administration of computer information systems. Students who complete this track will be qualified to take the national registration examination to earn professional recognition as a Registered Health Information Administrator (RHIA).

Program Requirements
Students must achieve and maintain an overall GPA of 2.50 and an area GPA of 2.75 on a 4.0 scale. Students must earn a grade of C or better in Public and Community Health core courses to successfully complete the program. Additionally, a grade of B or better in MAT 140 (or higher) and a grade of C or better in BIO 101 and CHE 105 or CHE 111 is required for program completion.

Any Public and Community Health student that is not adequately progressing through the program and/or has not met program requirements are held to the following:
• If a student earns below a C, the course must be repeated at the next available offering. If the course is not offered the next semester (or circumstances do not permit), but the student meets the cumulative GPA requirements, they will be allowed to progress in other courses.
• If on the third attempt, the student is still unable to earn a C or better, the course cannot be repeated again for the Public and Community Health program and the student can no longer progress through the program.

Department approval is required to transfer in HEA 110, 200, 210, 301, 311, 356, 415, 460, 470, and 499 from other institutions.

Unrestricted Electives ........................................................ 0-2 hrs

Total Curriculum Requirements ........................................ 120 hrs

Public and Community Health Minor ................................. 21 hrs
HEA 191, 201, 301, 302, 303, 311, and HIA 301. A minimum 2.50 GPA is required for admission and retention. Students must earn a grade of C or higher in all minor coursework. If a public and community health minor student’s GPA (minor or overall) drops below 2.50, the student will have one semester to improve the GPA. If after the subsequent semester, the GPA (overall or minor) is below 2.50, the student will no longer be able to remain in this minor program. No substitutions and/or alterations in the curriculum shall be made without written approval of the public and community health program director.

Athletic Training

As members of a sports medicine team, athletic trainers provide services comprising of prevention, emergency care, clinical diagnosis, and therapeutic interventions. Job settings for athletic trainers include secondary schools, colleges and universities, professional sports, rehabilitation clinics and hospitals, physicians’ offices, performing arts programs, military, law enforcement, and industrial medicine. Murray State University’s Master of Science in Athletic Training (MSAT) Program strengthens students’ critical inquiry, cultural competence, and patient care skills through didactic and clinical education. Students wishing to pursue the MSAT degree will have two routes of completion: accelerated or traditional. Regardless of which route students pursue, the MSAT curriculum encompasses two full years of didactic and clinical coursework, including both summers.

The Commission on Accreditation of Athletic Training Education (CAATE) accredits the Athletic Training Program. Graduates are eligible to sit for the Board of Certification (BOC) examination. Minimum eligibility for state credentialing is based upon successful completion of the BOC exam.

Students wishing to pursue the Master of Science in Athletic Training (MSAT) degree have two routes of completion:

Traditional Route

Students who currently hold a bachelor’s degree in an area other than Athletic Training and who complete the appropriate prerequisite coursework are eligible to apply for admission to the MSAT program.

Accelerated Route

Upon entering Murray State, students who are interested in Athletic Training but do not currently hold a bachelor’s degree should declare the Exercise Science major under the Pre-Health Professional track. During their third year of undergraduate study, those students who complete the appropriate prerequisite coursework are eligible to apply for admission to the MSAT program. If accepted into the professional program, conferment of the bachelor’s degree in Exercise Science will occur after the fourth year of study, and conferment of the MSAT degree will occur after the fifth year of study.

Athletic Training Admission Requirements

A considerable time commitment is required to successfully complete the MSAT Program. Students are chosen based on a selective and competitive admissions process due to the limited space availability at the clinical sites. For detailed admission requirements and application deadlines, visit the MSAT Program website. General requirements for admission are:

- Cumulative GPA of 3.0 or greater for full admission; conditional admittance may be considered if cumulative GPA is 2.9-3.0.
- Completion of course credit (90 hours at MSU or by transfer OR baccalaureate degree)
- Completion of appropriate prerequisite foundational coursework with a C or better:
  
  (Course eligibility at the discretion of the MSAT Admission Committee.)

Nursing and Health Professions

- CPR/AED and First Aid certification at the Health Care Provider level
- GRE scores earned no earlier than five years prior to application
- Observation hours with a certified athletic trainer
- Completed Technical Standards/Essential Skills Form (see Retention Requirements below)
- Proof of immunizations (including Hepatitis B or signed waiver, influenza, and TB)
- Online application
- Background check
- Official transcripts from all other colleges/universities attended (if applicable)

Athletic Training Retention Requirements
Students must maintain confidentiality at the clinical site(s), show respect for faculty, staff, preceptors, and patients, and demonstrate adequate performance to be retained in the MSAT Program. Specific requirements for retention are:
- Signed agreement to abide by all program policies and procedures as detailed on the MSAT program website
- Maintain MSAT GPA of 3.0 or greater
- Receive a C or better in all coursework and a B or better in clinical education coursework
- Achieve satisfactory completion of comprehensive assessments
- Provide personal transportation and/or housing to clinical rotations
- Any student who, after reasonable accommodations, cannot perform the Essential Skills may not be permitted to continue in the MSAT program.

It is the student’s responsibility to notify the Executive Director, Office of Institutional Diversity, Equity and Access, to request a reasonable accommodation. All requests must be accompanied by appropriate documentation from a qualified professional referencing the condition and specific need for the accommodation requested.

</table>
Nursing offers two degree programs, the baccalaureate program leading to the Bachelor of Science in Nursing (B.S.N.) and the Doctor of Nursing Practice (D.N.P.). The B.S.N. and D.N.P. are accredited by the Commission on Collegiate Nursing Education. The D.N.P., Anesthesia Specialization, is also accredited by the Council on Accreditation of Nurse Anesthesia Educational Programs.

The purpose of the undergraduate nursing program is to prepare:
- a liberally educated individual;
- a professional graduate who practices as a generalist;
- one who is qualified to pursue graduate study in nursing.

Upon completing the program, students will be eligible to apply to write the licensing examination for registered nurses (NCLEX-RN)\(^1\).

The baccalaureate nursing program is typically composed of two semesters of pre-nursing and six semesters of full-time study in the arts, sciences, and nursing. Upon completion of necessary prerequisite courses, students may apply for formal admission to the nursing program. This typically occurs the beginning of the sophomore year of study. Proof of up-to-date immunizations, tuberculin testing, CPR certification, professional liability insurance, background check, and drug screening must be submitted upon acceptance to the program. Failure to submit documents can result in mandated withdrawal or failure in the program. The prerequisite courses for admission consideration are BIO 227, BIO 228, CHE 111, COM 161, ENG 105, MAT 140, and PSY 180. A grade point average of 3.00 and 30 hours completed are the minimum standards for admission into the program. Admission is competitive and based on available space. Students are expected to maintain a grade point average of at least 2.00 and may pursue either a full-time or part-time (with approval) course of study. Licensed practical nurses may apply for NUR 206 credit upon successful completion of NUR 200, 201, and 205.

Students must earn a grade of \(C\) or better in all course work. Students must pass both theory and clinical practice in all clinical nursing courses or the entire course must be repeated. Once a student has a clinical failure, the student will receive an \(E\) for the course and may not withdraw from the course, regardless of the university calendar. If a transfer student earned a \(D\) or \(E\) in a nursing course, it counts as a first failure in the MSU program. A student who must repeat a course is admitted to future courses on a space-available basis.

If a grade less than \(C\) is received in one nursing course, the student may repeat the course as soon as it is offered on a space-available basis. If a grade less than \(C\) is received in one nursing course for the second time, the course cannot be repeated and the student is not eligible for readmission. If two nursing courses are failed (less than a \(C\)), the student is dismissed from the program, and is not eligible for readmission to the same option (the options are pre-licensure B.S.N. and R.N.-B.S.N.).

Admission deadlines are May 1, for fall semesters and December 1 for spring semesters. Clinical facilities require drug screening and criminal background checks.

Students are responsible for the purchase of uniforms, miscellaneous equipment and transportation during their program of study. Undergraduate nursing course clinical hours are calculated on a one-credit-hour-to-three-clinical-hour ratio. Clinical courses usually require more clinical hours than are listed in the class schedules. Students are encouraged to check with advisors about the necessary time commitment.

Detailed information about these and other policies, such as academic honesty and confidentiality, is available from the School of Nursing and in the MSU Student Handbook.

For further information write: Nursing Program, Murray State University, 120 Mason Hall, Murray KY 42071-3302.

\(^1\)Applicants must submit a certified copy of the court record of each misdemeanor or felony conviction and a letter of explanation that addresses each conviction. (201 KAR 20:270).

**Graduate Programs**

Graduate Coordinator - Dina Byers

**Master of Science in Nursing (MSN)**

**Note:** Students will be admitted to this program on a year-to-year basis.

The purpose of the Master of Science in Nursing (MSN) degree at Murray State University is to prepare advanced practice nurses within a rural setting to the end that wellness in society may be enhanced by 1) providing advanced nursing care; 2) advancing and expanding nursing knowledge and skill through systematic investigation and experimentation; 3) assuming a nursing leadership role within the health care delivery system; and 4) acquiring a foundation for doctoral study.
Requirements for Admission
Applicants must meet the Murray State University requirements (see Graduate Admissions). In addition to the general MSU application, applicants must complete an application from the School of Nursing. This application must be turned in to the departmental office by the deadline set by the department. Requirements for unconditional and conditional admission are as follows; additional requirements are listed under each concentration.

Unconditional
For unconditional admission, an applicant must have:
- baccalaureate degree in nursing from an NLNAC/CCNE-accredited institution;
- Kentucky licensure and/or licensure to practice as a registered nurse in the state of anticipated preceptorship.
- proof of liability insurance for advanced practice nursing, current immunizations, hepatitis vaccine or signed waiver, and TB testing are required before enrollment in clinical nursing courses. Submit copies to the Nursing Graduate Coordinator;
- undergraduate cumulative grade point average of 3.0 on 4.0 scale, post-master’s certificate applicants grade point average of 3.5 on a 4.0 scale;
- a Graduate Records Exam (GRE) score;
- for international applicants, RN licensure in Kentucky and/or licensure to practice as a registered nurse in the state of anticipated preceptorship, a TOEFL score of 86 combined;
- three favorable recommendations (submitted on a School of Nursing form);
- a successful interview by the selection committee;
- current CPR certification; current ACLS and PALS certification for NA concentration only;
- one year full-time RN experience (or 2000 clock hours) prior to interview for all concentrations with the NA concentration requiring the experience to be in intensive care;
- following the application deadline, the Graduate and Selection Committees will review all completed application packages and offer interviews to the most qualified applicants.

Conditional
Applicants who do not meet all of the requirements for unconditional admission will be considered on an individual basis. Detailed information about these and other policies, such as academic honesty and confidentiality, is available from the School of Nursing and in the MSU Student Handbook. The commission on Collegiate Nursing Education is a resource for information about this program and may be obtained from the CCNE at CCNE, NW Suite 530, Washington, DC 20036 or call 202-887-6791.

For further information write: School of Nursing, Murray State University, 120 Mason Hall, Murray, KY 42071.

This concentration can be completed either full-time or part-time. If full-time, one year RN experience prior to admission is required.
Master of Science in Nursing/Nurse Anesthetist Concentration  
CIP 51.3801

ACCREDITED BY: Commission on Collegiate Nursing Education (CCNE)

**Total Course Requirements** ........................................... 64 hours

**Advanced Nursing Core Courses** ........................................ 19 hrs
NUR 603 Theory and Concept Analysis in Nursing
NUR 605 Issues in Rural Health Care
NUR 630 Research in Nursing  
NUR 631 Evidence-Based Clinical Practice  
NUR 641 Advanced Nursing Assessment
NUR 673 Pathophysiology in Advanced Nursing Practice

**Clinical Specialty** .......................................................... 27 hrs
NUR 606 Scientific Foundations in Anesthesia I
NUR 607 Scientific Foundations in Anesthesia II
NUR 608 Scientific Foundations in Anesthesia III
NUR 609 Scientific Foundations in Anesthesia IV
NUR 632 Principles of Anesthesia Practice I
NUR 633 Principles of Anesthesia Practice II
NUR 634 Principles of Anesthesia Practice III
NUR 635 Principles of Anesthesia Practice IV
NUR 636 Pharmacology for Nurse Anesthesia I
NUR 637 Pharmacology for Nurse Anesthesia II
NUR 638 Pharmacology for Nurse Anesthesia III

**Clinical Practicum** ......................................................... 9 hrs
NUR 651 Clinical Practicum I
NUR 652 Clinical Practicum II
NUR 653 Clinical Practicum III

**Other Required Courses** .................................................. 9 hrs
NUR 655 Seminar in Nurse Anesthesia I
NUR 656 Seminar in Nurse Anesthesia II
NUR 660 Special Topics

Substitutions for required courses can be made only with the approval of the departmental graduate coordinator and/or chair.

**Other Degree Requirements**
This is a full-time concentration.

**Doctor of Nursing Practice (DNP)**
The doctoral degree program in nursing is designed to move BSN prepared Registered Nurses to advanced practice. This unique program educates individuals to be advanced practice nurses (family nurse practitioners and nurse anesthetists) who are nursing leaders prepared to improve health-related outcomes at the individual client, population, and organization/system levels. The program has mandatory clinical experiences across the lifespan at clinical sites encompassing a wide variety of settings depending upon which specialization the student selects. Graduates of the DNP program will meet national certification criteria for advanced licensure.

**Requirements for Admission**
Applicants must meet the Murray State University requirements (see Bachelor of Science in Nursing). In addition to the general MSU application, applicants must complete an application from the School of Nursing and Health Professions. This application must be turned in to the departmental office by the deadline set by the department. Requirements for unconditional and conditional admission are as follows; additional requirements are listed under each concentration. All application materials must be submitted on or before the application deadline.

**Unconditional**
For unconditional admission, an applicant must have:
- undergraduate cumulative grade point average of 3.0 on 4.0 scale;
- baccalaureate degree in nursing from an ACEN/CCNE-accredited institution;
- official transcripts from every college/university attended submitted to Murray State Graduate Admissions;
- current CPR certification; current ACLS and PALS certification for nurse anesthetist specialization only;
- students whose native language is not English, a TOEFL/IBT scores of 86 combined and a minimum of 26 speaking, 20 writing, 20 reading, and 20 listening;
- three professional recommendations submitted on a School of Nursing and Health Professions Recommendation forms;
• unencumbered licensure as a registered nurse (students will also be required to be licensed as a registered nurse in any state in which they intend to complete clinical hours for the program);
• submission of a one to three, double-spaced pages listing reasons for the seeking of doctoral study, including short- and long-term professional goals; and
• a successful interview with the DNP faculty.

**Family Nurse Practitioner Specific Requirements**
• One year experience as a registered nurse.

**Nurse Anesthesia Specific Requirements**
• Two years critical care experience as a registered nurse (excluding orientation to the critical care unit) within the past five years and by the time of application;
• chemistry prerequisite of organic or biochemistry course; and
• current PALS or ACLS.

Students who request admission to Murray State University’s Doctor of Nursing Practice program must be in a good standing at previously and/or currently enrolled programs. Proof of liability insurance for advanced practice nursing, current immunizations, hepatitis vaccine or signed waiver, and TB testing are required before enrollment in clinical nursing courses. Submit copies to the Graduate Coordinator, School of Nursing and Health Professions.

Where unusual or extenuating circumstances are indicated, the Dean of the School of Nursing and Health Professions may admit a student who does not meet the above criteria.

All application materials must be submitted on or before the application deadline.

Doctor of Nursing Practice/MSN to DNP  CIP 51.3818

The MSN to DNP specialization is designed to move MSN prepared Advanced Practice Registered Nurses (APRNs) to a doctorate in nursing practice. All application materials must be submitted on or before the application deadline.

Requirements for Admission
Admission criteria is as follows:
• master’s degree in nursing with advanced practice credentials from an NLNAC/CCNE-accredited institution;
• graduate cumulative grade point average of 3.5 on 4.0 scale;
• official transcripts from every college/university attended submitted to Murray State Graduate Admissions;
• current CPR certification; current ACLS and PALS certification for nurse anesthesia concentration only;
• APRN certification - Clinical Nurse Specialist (CNS), Family Nurse Practitioner (FNP), Nurse Anesthetist (NA), or Nurse Mid-Wife;
• students whose native language is not English, a TOEFL/iBT scores of 86 combined and a minimum of 26 speaking, 20 writing, 20 reading, and 20 listening;
• three professional recommendations submitted on a School of Nursing and Health Professions Recommendation forms;
• unencumbered licensure as an advanced practice registered nurse (students will also be required to be licensed as an APRN in any state in which they intend to complete clinical hours for the program);
• submission of a one to three, double-spaced pages listing reasons for the seeking of doctoral study, including short- and long-term professional goals; and
• a successful interview with the graduate faculty.

Students who request admission to Murray State University’s Doctor of Nursing Practice program must be in a good standing at previously and/or currently enrolled programs. Proof of liability insurance for advanced practice nursing, current immunizations, hepatitis vaccine or signed waiver, and TB testing are required before enrollment in clinical nursing courses. Submit copies to the Graduate Coordinator, School of Nursing and Health Professions.

Where unusual or extenuating circumstances are indicated, the Dean of the School of Nursing and Health Professions may admit a student who does not meet the above criteria.
