Spring 2022 - Volume 43

A Word from the OSP Staff

One of the most overlooked things that can make a grant proposal more competitive is to have someone else read their proposal narrative and budget. Many writers are uncomfortable letting someone else see their proposal before it is "finished". However, once it is "finished" there is not much time before submission and any major issues are more difficult to fix. OSP will help you develop your proposal by reading multiple drafts with an eye to adherence to the guidelines and budget constraints. Contact OSP for this service as soon as you decide to submit a proposal. We can assist you along the way and make it easier.

OSP Spotlight

Tamela Darnell

Kentucky Department of Education

Tamela Darnell, Finance, Business, and Administrative Manager for the College of Education and Human Services was recently awarded a contract from the Commonwealth of Kentucky. The grant in the amount of $97,500 will be used for New Teacher Support.

The goal of this grant is to provide professional development, resources, and mentoring support to first-year teachers who were graduates of Murray State University. Grant coordinators, Donna Wear and Amy Waggoner developed a strong program for the participants at their first meeting held on April 18th.

The program included guest speakers and break-out sessions led by veterans in the field. The grant funds also allowed participants to leave with a variety of classroom resources, a classroom crisis bag, and receive a stipend to go towards their classrooms.
