Progressive Farming. Family Style.

Location of openings:
Crawfordsville, IN
Morristown, IN

RESEARCH SPECIALIST

- Primary responsibilities:
 - Executing research in a multidisciplinary applied swine science program.
 - Reporting to the Site Manager, the Specialist will be responsible for the daily conduction of research trials and collection of data in large-scale commercial sow farms.
 - Accountable for upholding the standards for research execution ensuring that the highest scientific standards are met.
 - Accountable for the integrity of all research data collected.
- Minimum qualifications:
 - Minimum of Associates' Degree in Animal Science, Agricultural Business or a related field. Bachelor's Degree or equivalent work experience preferred.
 - No previous experience in modern swine production or research required, but an internship of 6 months – 1 year in swine production or research is preferred.

GENETIC SUPERVISOR

Location of openings:
Tell City, IN

- Primary responsibilities:
 - Daily execution of all on-farm genetic work instructions as outlined by The Maschhoffs Genetic Program.
 - Execution of accurate data collection, accurate information reporting to the proper Genetic Information System and timely submission of answers to data inputting questions from the Genetic Information Systems Teams.
 - Reports to the Genetic Site Manager and works closely with the Genetics Service Manager.
- Minimum Qualifications:
 - Minimum of Associates' Degree in Animal Science, Agricultural Business or a related field. Bachelor's Degree or equivalent work experience preferred.
 - At least 1 year experience in a sow production unit preferred.

ANIMAL CAREGIVER

Location of openings:

Crawfordsville, IN

Morristown, IN

Tell City, IN

- Primary responsibilities:
 - Responsible for daily care of the animals, ensuring adequate access to feed and water, monitoring the barn environment and making sure pigs are comfortable.
 - Trained to specialize in a certain function, whether that's breeding, assisting during piglet birth or caring for young piglets.
- Minimum qualifications:
 - A high school diploma or GED is preferred.
 - Animal husbandry skills, or the desire to learn how to effectively care for pigs.
 - One year farm and/or livestock experience.
 - Basic understanding of Microsoft Office and computers.
