

Courtney Thomas (2008)

Biological Sciences

“My experiences as an undergraduate researcher were invaluable in preparing me for life as a graduate student at Texas Tech University. The skills I gained both in the field and in the lab as an undergraduate helped me transition relatively seamlessly into life as a graduate researcher, developing and designing my dissertation research. Networking with professionals in the field and attending local, state, and national conferences provided valuable insight into the field of biology I am now pursuing. “

Courtney Thomason (2008)
Doctoral Student, Dept. of Biological Sciences
Texas Tech University
Mentor: Dr. Terry Derting

**Undergraduate Research
and Scholarly Activity**
