

Endorsement for Instructional Computer Technology:P-12

Program of Studies

Program participants learn how to develop more effective instruction with appropriately infused technology so that all students can learn at higher levels. Participants will develop the skills and dispositions of reflective decision makers through program experiences that prepare them to assess and identify instructional computer technology opportunities in the classroom, to develop technology-infused instruction, and to reflect on and refine the impact of their instruction on student learning. Completion of the program with a minimum 3.0 GPA and a passing score on the portfolio shall result in a recommendation for the instructional computer technology endorsement (P-12).

12 Hours- 4 Classes

Program Prerequisites:

1. The possession of a valid teaching certificate for the elementary, middle school, or high school level.
2. One year of teaching experience.
3. Admission to graduate studies at Murray State University.

Required Core Courses:

EDU 606 Preparation of Curriculum Materials

EDU 626 Integration of Educational Technology

Pick Two of Three Offered Electives:

ADM 670 Educational Technology

CTE 667 Trends and Instructional Technology

SED 614 Advanced Instructional Technology
